THE FUTURE OF BUILDING

Build Asia, the Asia's Leading Trade Fair for Architecture, Materials and Systems, takes place every year. Everyone involved in the international community for planning, building and designing buildings comes together here—i.e. architects, planners, investors, representatives of the industrial and commercial sectors, the building trades, etc.

Their primary interests include the latest techniques, materials and applications that can be put to use in actual practice. This is where visitors experience the future of building in person.

Build Asia features materials, technology and systems for commercial and residential construction and interior work for both new-build and modernization and renovation on more than 60,000 square meters of exhibition space. It covers the complete range of state-of-the-art technology in the international building industry.

Build Asia 2026, the Asia International Building and Construction Exhibition, is held concurrently with HORECA Asia (Asia International Hotel ,Restaurant, Catering Expo) and HVAC Asia (Asia Inter national Heating, Ventilation, Air Conditioning, and Refrigeration, Kitchen & Bath Expo), forming a complete platform for showcasing the building industry chain.

Now, be YOU

EXHIBITION SECTORS

Aluminium

Aluminum profiles/systems
Machines for aluminum and steel work
Facade systems

Architectural building materials and joining solutions / raw construction materials

Types of concrete
Cement
Plasters
Screeds
Insulation materials

Chemical building products

Plasters/Varnishes/Paints
Adhesives
Protection against heat, cold, fire and noise
Insulation materials

Floor coverings

Elastic
Textile
Parquet
Laminates
Moldings and profiles
Decking panels
Floor-laying technology and equipment

Roof systems / Solar systems

Roof tiles
Roof-building materials
Green roofs
Bricks
Solar modules

Digital solutions / AI / robotic

Automated construction machines
Autonomous, semiautomated & teleoperating systems
Exoskeletons
Generative Design
Hardware
Light detection, Ranging equipment
Measuring technology
Robotics, AI, Software
Single-Task Robots
Remotely controlled machines

EXHIBITION SECTORS

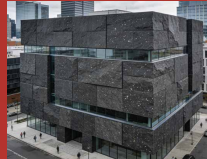

Energy and Building systems

Air-conditioning technology
Ventilation technology
Building-integrated systems, control systems, energy storage

Tiles/ Ceramics/ Sanitary/ Natural stone

Artificial stone
Facade

Building automation/control

Control and monitoring systems for building equipment
Smart Home
Elevators

Glass

Glass building materials
Facade systems
Glass structures
Foils

Wood

Wood materials
Interior work
Timber construction
Facades systems

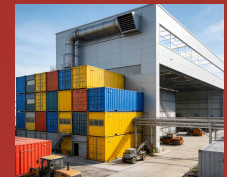

Light

Daylight deflection
Light strips/skylights
Artificial lighting concepts

Modular construction / Serial and prefabricated construction

Wood/steel/concrete modular construction
Container
Prefabricated halls
Hybrid modular construction

EXHIBITION SECTORS

Locks / Fittings / Security

Locks
Automatic door technology
Accessories
Access-control systems
Cylinder

Doors and windows

Wood
Aluminum
Plastic
Glass

Security Technology / Gate and parking systems

Perimeter technology
Mobility solutions
Parking systems
Gate systems
Gate and door drive technology

Shading systems

Sun protection
Louvered roofs
Roller shutters

Steel/Zink/Copper

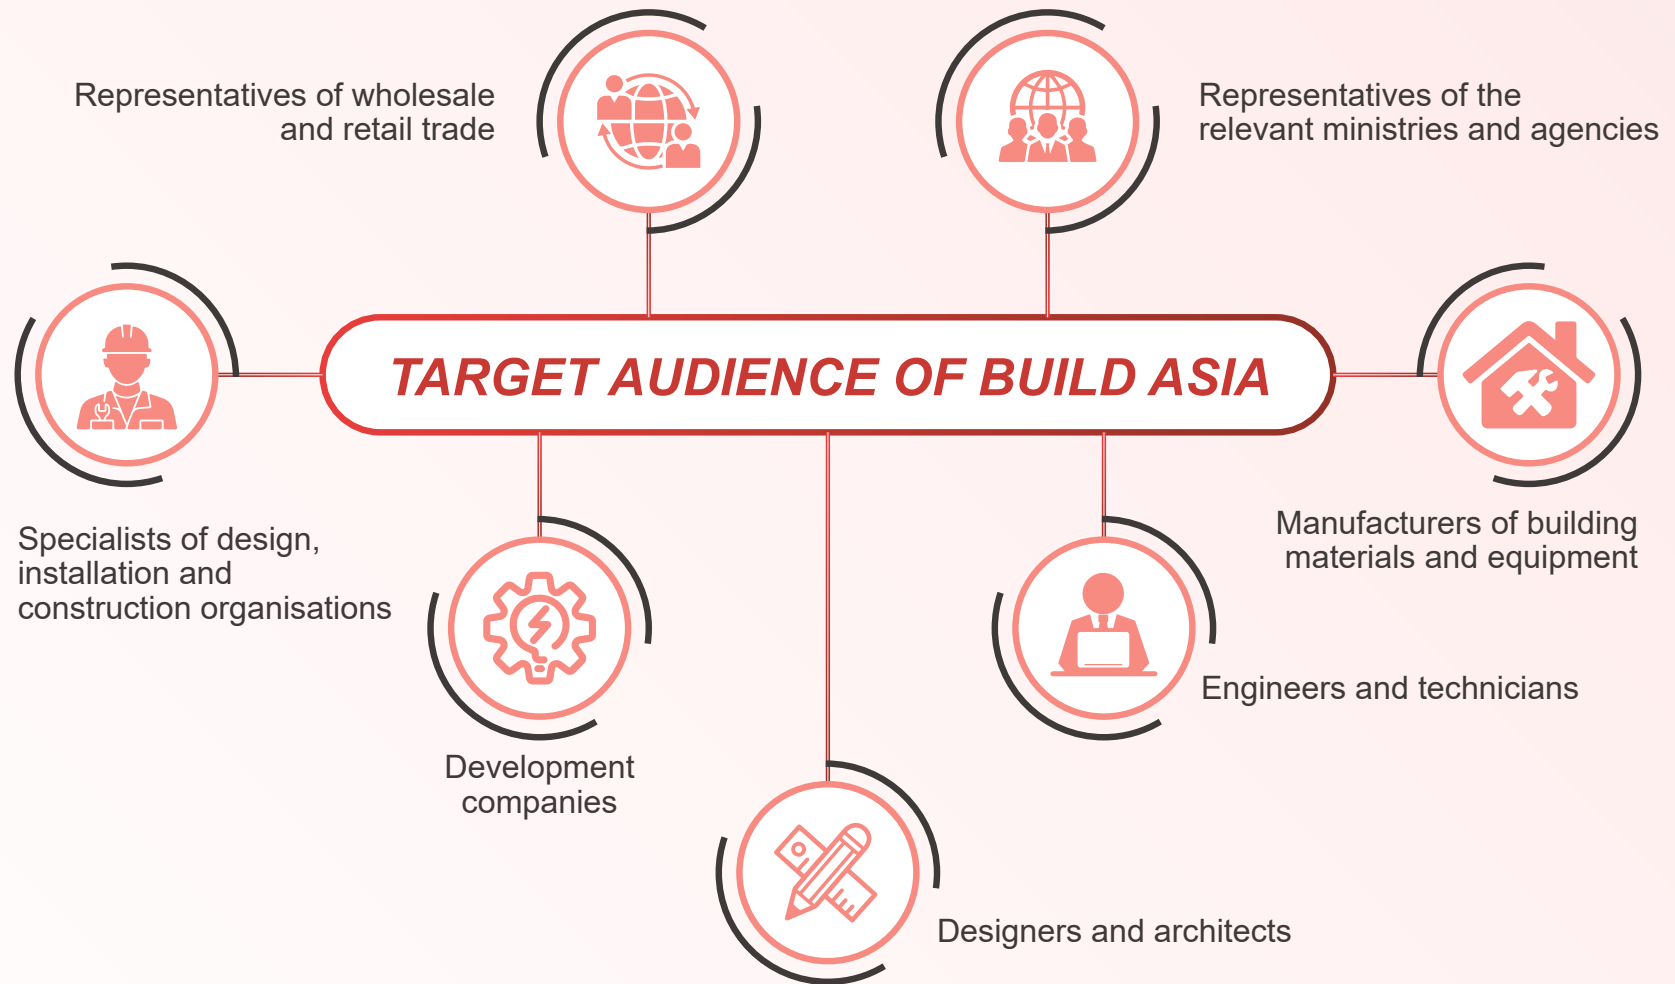

Profile/building systems
Facade systems

Tools & PPE

Workwear
Tools
Occupational safety
